MANITOBA POPULATION ESTIMATES - July 1, 2006

	July 06	July 05	Change
POPULATION	1,177,765	1,174,148	up 3,617

NET MIGRATION	**(July to June)**	**2005/06**	**2004/05**
	Interprovincial	-8,635	-7,227
	Total	-72	-95

Manitoba's total population was estimated at 1,177,765 persons as of July 1, 2006, an increase of 3,617 persons, or 0.31%, from the July 1, 2005 total of 1,174,148.

Manitoba's net interprovincial migration loss totaled -8,635 persons for the census year ending June 30, 2006, compared to the net loss of -7,227 persons for the previous year.

Eight out of ten provinces had net interprovincial migration losses in 2005/06. Alberta (57,105) and British Columbia (3,779) showed the only gains. Ontario (-21,391) and Saskatchewan (-9,073) reported the largest losses through interprovincial migration.

Interprovincial migration is generally offset to some degree by other types of population movement (international migration, Canadian citizens returning from abroad, non-permanent residents and Canadians temporarily abroad). When these other forms of population movement are combined with interprovincial migration, Manitoba recorded an overall net migration loss of -72 persons in 2005/06, compared to the net loss of -95 persons in 2004/05.

Net international migration continued to increase for the eighth straight year with Manitoba recording a net gain of 7,514 persons during the census year ending June 30, 2006. This increase has mainly been the result of immigration levels that have nearly doubled since 2002/03. In the census year ending June 30, 2006 Manitoba gained 8,884 persons through immigration, compared to the gain of 4,906 persons in the 2002/03 census year.

It should be noted that Statistics Canada has released revised components of population estimates for Canada, the Provinces and Territories. The revised estimates cover the time period from 2002/03 onward. This MBS report incorporates all revisions.

Table 5 presents the differences between the current population statistics contained in this report and those previously published by Statistics Canada for Table 1.
